

KF-3001-BK

3.5" Internal Hot Swap Rack **RAID- 3 Bay**

KF-3001-BK is an internal 3.5" hot swap rack that lets you stack 3 hard drives in a 2 bay space. This space-saving design allows you to store more with less. KF-3001-BK also comes with a 80 x 80 mm rear fan to cool down your hard drives and prevent them from overheating. If you need to multiply your storage, KF-3001-BK multi-bay internal hot swap rack is your number one choice.
